Mat South	2,194
Total	36,423

The Learning Passport offers simple, easy and fun ways to learn. Through tailor-made programs online, offline and mobile access, the tool can reach the most vulnerable learners allowing children to learn at their own pace.

While the Learning Passport hosts a digital library of teaching and learning resources covering the entire primary and secondary education curriculum, it also comes with different life skill courses for young people. The learning passport is available on: [mopsezw.learningpassport.unicef.org](https://mopsezw.learningpassport.unicef.org).

Schools in Zimbabwe have remained closed for almost 12 months, affecting 4.6 million learners and 139,596 primary and secondary school teachers. Most public schools do not have the capacity to offer distance or online learning as teachers are not equipped and trained to deliver remote learning while

The Rapid Teacher Training Programme on Open, Distance and Online Learning factors in the need to build and/or strengthen the technical and adaptive capacities of teachers to support children's learning using remote methods of teaching including radio, digital and print materials at home, during and after the emergency.

The adoption of the Ag-RDT drastically improved COVID-19 testing accessibility, improved results turnaround time from days to less than half an hour. Resulting in timely surveillance activities. Consequently, the use of Ag-RDTs, doubled Zimbabwe's testing capacity from a maximum of 1000 tests per

A man wearing a white shirt, a tan vest, and a face mask is standing next to a large stack of cardboard boxes. The boxes are labeled with the 'CHINA AID' logo and the Chinese text '中国援助' (China Aid). The logo features a red stylized flower or star shape. The man is looking down at the boxes, and his hand is near one of them. The background is a plain, light-colored wall.

The objective of the health assistance project is to enable the Ministry of Health and Child Care (MoHCC) to strengthen emergency obstetric and neonatal care in the cyclone affected areas in Zimbabwe. This is in turn

Beyond emergencies like Cyclone Idai and COVID 19, investment especially in the young population is critical for sustainable development.
